

ZAPP-Air Circular no. 7

March 2023

Content:

- **ATLAS AES Release 3.0 – enhancements to ZAPP-Air Circular no. 6**

The ZAPP-Air Circular no. 7 provides information about planned dates for testing or productive commissioning.

1. **ATLAS AES Release 3.0 – enhancements to ZAPP-Air Circular no. 6**

Beginning of May 2023	The new interfaces can be used in the test mode for the transmissions to ZAPP-Air.
Middle of May 2023	The test with ATLAS connection is possible
End of June 2023	Productive commissioning

Unfortunately we had to change the interface descriptions in section ZPS again. Please note the current interface descriptions!

The changed interface descriptions (version 1.6) can be found here
