

Newsletter No. 02/2018

February 7th, 2018

Contents

General Information

- **ZODIAK maintenance on February 10th/11th, 2018**

Information for freight forwarders

- **Status “Gate-In” (710) for diversions up to 24 hours**

Scheduling overview

- **Summary of IMP relevant dates**

The newsletter 02/2018 provides information about changes and new functionalities in the Import Message Platform. The software changes for the IMP release 7.0.0 became active with the maintenance work during the night of 07.02.2018. The software changes described below do not affect existing interfaces.

Information and implementation guides can be found at <http://www.imp-hamburg.de>.
The application IMP-Direct can be reached at <http://www.imp-direct.de>.

A complete inventory of fixed bugs and smaller enhancements can be found in the release-notes via IMP-Direct, which can be found in the menu “Help/Release-Notes”

General Information

- **ZODIAK maintenance on February 10th/11th, 2018**

Starting from February 10th, 6:00 pm to February 11th, 8:00 am, the customs application ZODIAK will be migrated to ATLAS version 8.8, there for a number of EORIs will be migrated as well. For the purposes of the IMP this includes the EORI numbers of the following terminals:

- Eurogate
- Unikai
- Rhenus Midgard

Information for freight forwarders

- **Status “Gate-In” (710) for diversions within 24 hours**

If a container is diverted after seaside delivery and the diversion is successfully finished with a gate-in from the targeted terminal, you will get the Status “Gate-in” (code 710), provided you sent an import operation instruction or a status request. The targeted terminal will be contained in the resulting status message.

Scheduling overview

- **Summary of IMP relevant dates**
