

## Newsletter No. 03/2018

---

March 9<sup>th</sup>, 2018

### Contents

#### General Information

- ZODIAK maintenance on March 10<sup>th</sup>/11<sup>th</sup>, 2018
- Technical IMP maintenance on March 20<sup>th</sup>/21<sup>th</sup>, 2018

#### Information for carriers

- Mail Groups
- Embargo reasons
- Container ISO size-type verification

#### Information for freight forwarders

- Extension to E-mail notifications

#### Information for terminals

- Terminal configuration

#### Scheduling overview

- Summary of IMP relevant dates

The newsletter 03/2018 provides information about changes and new functionalities in the Import Message Platform. The software changes for the IMP release 7.1.0 became active with the maintenance work during the night to 14.03.2018. The software changes described below do not affect existing interfaces.

Information and implementation guides can be found at <http://www.imp-hamburg.de>.  
The application IMP-Direct can be reached at <http://www.imp-direct.de>.

A complete inventory of fixed bugs and smaller enhancements can be found in the release-notes via IMP-Direct, which can be found in the menu “Help/Release-Notes”

## Newsletter No. 03/2018

March 9<sup>th</sup>, 2018

### General Information

#### ▪ **ZODIAK maintenance on March 10<sup>th</sup>/11<sup>th</sup>, 2018**

Starting from March 10<sup>th</sup>, 9:00 pm to March 11<sup>th</sup>, 0:30 am, the customs application ZODIAK for the EORI of the HHLA container terminals CTA, CTB and CTT will be migrated to AT-LAS version 8.8.

It will not be possible to create, change or finalize ATB-Numbers for these terminals during the maintenance. All other terminals and IMP functions will be not affected by this downtime.

#### ▪ **Technical IMP maintenance on March 20<sup>th</sup>/21<sup>th</sup>, 2018**

Starting from March 20<sup>th</sup>, 10:30 pm to March 21<sup>th</sup>, 0:00 am, the data communication with the IMP will be interrupted due to technical maintenance. Any messages received within the mentioned time frame will be processed after the maintenance work is completed.

### Information for carriers

#### ▪ **Mail Groups**

There are two new entries in 'Administration' -> 'Mail administration' -> 'Mailgroups': 'List of mailgroups' and 'Create mailgroup'. Via 'List of mailgroups' you can view, edit and delete all of your companies mailgroups. Via 'Create mailgroup' you will be led to a form for a new mailgroup. After having named the group you can choose which status codes and error cases should generate mails to the members of the selected group. To the right of the status codes you can manage the email addresses that should be in this group. These addresses can be deactivated if necessary.

If 'All' is checked, you will be informed about every Status.

Create e-mail group:

E-mail group name:

| status code selection |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | E-Mail Adresse       | Active?                             |

## Newsletter No. 03/2018

---

March 9<sup>th</sup>, 2018

### ▪ Embargo reasons

In the future it will be possible to change the embargo reasons **after** the application for an S-number. If this is done the S-number will be cancelled and a new one is generated automatically. The following symbols will be presented to show the different process status:

- : No embargo reasons have been given for a process that underlies an embargo. S-number cannot be generated.
- : At least one embargo reason has been given
- : S-number generated. If you change the embargo reasons the current S-number will be cancelled and a new one will be generated automatically.

### ▪ Container ISO size-type verification

The check for error code 320 ('ISO code invalid') will be changed. In the future Container ISO size-type codes will only be checked by length. Only ISO codes of length 4 are valid.

### Information for freight forwarders

#### ▪ Extension to E-mail notifications

In the tab 'E-Mail Notification' the entry mask has been redesigned. The columns 'Manifest', 'Authorities', 'Access', 'Customs', 'Port', 'Disposal' and 'Actions' are now available there. The first six columns contain dropdown menus in which you can select status. In addition to the menus, you can click on all status of the respective area.
