The newsletter 11/2018 provides information about changes and new functionalities in the Import Message Platform. The software changes for the IMP release 7.9.0 became active with the maintenance work during the night of 28.11.2018. The software changes described below do not affect existing interfaces.

Information and implementation guides can be found at <http://www.imp-hamburg.de>.
The application IMP-Direct can be reached at <http://www.imp-direct.de>.

A complete inventory of fixed bugs and smaller enhancements can be found in the release-notes via IMP-Direct, which can be found in the menu "Help/Release-Notes"

Information for freight forwarders

- Forwarder's reference within the status email

If a forwarder's reference has been specified within an import operation instruction (IOI), it will also be displayed behind the vessel name in the subject line of the status mail.

Subsequently an example with the forwarder's reference REF123:

IMP-Status: 941: ASTU0357949 (ATB150035061120185872) ex PAX, **REF123**
