

ZAPP-Circular no. 41

Content

1. LRN

The ZAPP Circular no. 41 provides information about planned changes concerning the ZAPP application and the interfaces HDS and GM01.

1. LRN

With the ATLAS AES Release 3.0 AES presentation notifications for the one-stage AES procedure have to be declared with the Local Reference Number (LRN) instead of the MRN.

Hereby the HDS and GM01 interface requires following information:

1. Local Reference Number (LRN) – NEW
2. Indicator of completeness
3. Consignor / exporter of LRN (alternatively to the representative / declarant)
4. Representative /declarant of LRN (alternatively to consignor / exporter)

The updated HDS and GM01 messages are to be used for declarations in the one-stage AES procedure as of 06th of June 2023.

The updated interface description of the HDS can be found here:
