

ZAPP-Circular no. 42

Content

1. **Update of the dates for the changeover to AES 3.0**
2. **Update of the dates concerning the test and introduction of LRN**

The ZAPP Circular no. 42 provides information about schedule changes concerning the ATLAS release 3.0.

1. Update of the dates for the changeover to ATLAS 3.0

In [ATLAS-Info 0440/23](#) the deadline for the changeover of participants to ATLAS 3.0 was extended from 16. July 2023 to 29. October 2023.

1. Update of the dates concerning the test and introduction of LRN

The following changes arise for the planning of introducing the Local Reference Number (LRN) in ZAPP.

The interface changes published in the ZAPP circular no. 41 can be fully tested from the end of June 2023.

The updated versions of the HDS and GM01 messages for declarations in the one-stage AES procedure with LRN are expected to become mandatory from the end of September 2023.

Specific dates and further details concerning the ZAPP conversion from ATLAS 2.4 to ATLAS 3.0 will be provided in a separate ZAPP circular.
