

Deferment accounts

This chapter explains how to create a deferment account.

A deferment account is a payment simplification of customs clearance. It is necessary to apply to customs for a deferment account. Deferment accounts are country-specific.

In Germany, a deferment account must be applied for import customs clearance. The deferment account is collateralised. It can only be used for duties incurred through the transfer of goods for free circulation.

Create deferment account

This chapter describes how to create a deferment account for an economic operator.

Restriction: To create a deferment account, you need at least the authorization **DefermentAccount > create**.

1. Select the menu entry **Maintenance > Economic Operators (Customs)**.
2. Open the economic operator by double clicking.
This opens the **Economic Operator** tab.
3. Click on the tab **Deferment account**.
4. To set up a new deferment account, click on the **+** icon.
The window **Deferment account** opens.
5. Fill out the fields **Country** and **Account type**. Click on the button **OK**.

Tip: Depending on the country specified, different values can be selected in the field **Account type**.

Depending on the selected account type, the tab Account type opens.

6. Fill out at least the mandatory fields. You will find all the necessary information on your letter from customs.
7. To create a deferment account for Germany, proceed as follows:
